View - Registration Token

Instructions

In order to configure the Warehouse app please:

- Ensure the device has an Internet connection.
- When prompted on the device select the option "Use a token".
- Scan the above barcode.
- Note some built in scanners are not effective at reading barcodes on a computer screen. The token may be typed.
- The app will then configure itself to connect to this instance.
- If you see a "Token Expired" message you will need to regenerate this barcode. The token is valid for 30 minutes.

Close

Summary

Set of integrated apps that **work better together**

Very fast setup and start to use

Focus on **cutting time** to transact

Proven apps with lots of references

Extensible, what do you want them to do

Competitive flexible licencing using device licences

clever DYNAMICS

Subscription Licencing (per month)
