Shop Floor Insight

SHOP FLOOR DATA COLLECTION

A comprehensive solution for barcoded time capture, time & attendance, and employee time management.

- Eliminate manual time entry with barcode scanning for Production Orders, Jobs, Service Orders, and Fixed Assets
- Capture operational data on the shop floor including consumption, output, scrap, and quality
- Record and report on non-productive and rework time for better insight into lost productivity
- Record time and attendance based on employee shifts with exception reporting

DocXtender

DOCUMENT
DRAG AND DROP

DocXtender enables users to attach documents to any page in Business Central with a simple drag and drop.

- Simple drag and drop to any Attachments fact box
- Don’t lose another document – files are always attached or linked in Business Central
- Store files and documents in SharePoint or Business Central

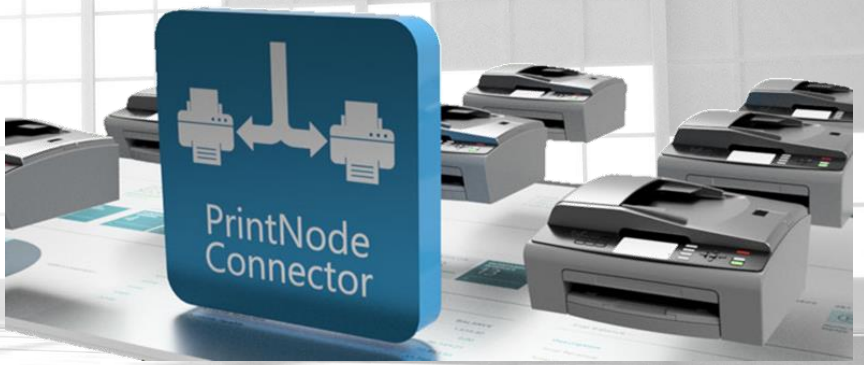
www.DocXtender.com

PrintNode Connector

CLOUD PRINTING FOR BUSINESS CENTRAL

Connect your network printers to Dynamics 365 Business Central Cloud

- Makes printing seamless – no more downloading PDFs to print or user intervention when printing multiple reports
- Simple single-field setup
- Uses standard Business Central printer management capabilities
- Works with all standard and custom reports and pages, including barcode labels



www.dmsiworks.com

Barcode Generator

1D & 2D BARCODES FOR BUSINESS CENTRAL

Add 1D and 2D barcodes to your Dynamics 365 Business Central reports.

- Supports linear (Code39, 128) or 2D (Data Matrix) barcodes
- Includes sample reports such as labels, order confirmations, warehouse documents, and production orders with barcodes
- Simplified page to create reusable barcodes
- Create your own new reports with barcodes.

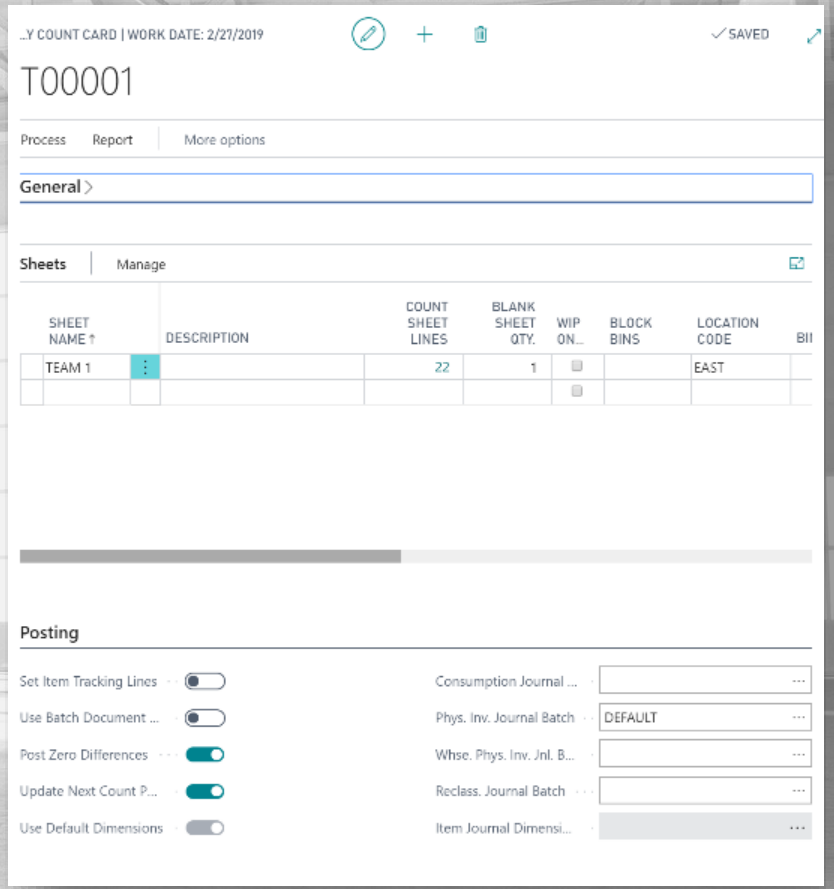
Advanced Inventory Count

INVENTORY MANAGEMENT

Simplify inventory counts with comprehensive data entry, reconciliation, posting and analysis tools.

- Easily perform manually-entered or barcoded inventory counts and cycle counts
- Automatically reconcile and post lot or serial number discrepancies
- Predefine count sheets or allow users to complete ad hoc inventory counts
- Create formal recount sheets to track count issues and resolutions
- Supports all location configurations, from non-mandatory bins to directed pick with warehouse item tracking



www.InventoryForDynamics.com

Enhanced Planning Worksheet

BETTER-INFORMED DECISION MAKING

Provides alternate planning logic for distribution companies that are struggling with standard NAV or Business Central MRP.

- Advanced Planning functionality for distributors
- Intuitive dashboard for better decision making
- Configurable user preferences to adapt to your processes
- Set up specific weights and values per vendor for prepaid thresholds
- Set up user-specific profiles for planning and demand visibility

Product Configurator

CONFIGURE PRICE QUOTE

Product Configurator makes quote and order generation more streamlined.

- Save users significant time when quoting or designing products
- Reduce manual input and improve efficiency and accuracy in sales quotes and orders
- Simplify the ordering and quote process for staff
- Automatically generate Assembly or Production BOMs/Routings on Sales Orders and Quotes
- Integrate with standard Microsoft Dynamics 365 Business Central MPS and MRP to properly plan your new products

www.CPQforDynamics.com

Counter Sales

INDUSTRIAL POS

Counter Sales is ideal for B2B counter sales and smaller retail operations, such as parts counters or outlet stores.

- Simplified order entry screen
- Supports barcode scanning
- Advanced search tool
- Accept multiple payment types
- Accept deposits in partial or full
- Easily reconcile your cash drawer
- Track lost sales
- Track pricing overrides on sales with formal override tracking

www.POSforDynamics.com

DOCUMENT
DRAG AND DROP

Insight Works offers free utilities that enable users to attach documents to any Microsoft Dynamics 365 Business Central or NAV record with a simple drag and drop.
