

The logo for NAVEKSA features the word "NAVEKSA" in a bold, dark blue, sans-serif font. The letter "E" is stylized, consisting of three horizontal bars stacked vertically. Above the top bar of the "E", there are three more horizontal bars, also stacked vertically, creating a total of six bars for the letter "E".

Productivity solutions for Dynamics 365 Business Central

THINK efficiency – We do..

CadConnect

ShopFloor

ItemPlanning

MakeToOrder

Leading manufacturing IT-solution provider

Development and sales of logistics & manufacturing solutions.
Apps which extend core functions in Business Central/NAV since 2008.

Quality approved solutions

All apps are Microsoft certified & approved for Microsoft Appsource.

Easy to get

Apps can be downloaded from Microsoft Appsource for Cloud installations or on-premise use.

Easy to get started and easy to run

Comprehensive setup to custom tailor the solutions to the wanted use.

Proven productivity gains

Customers in 15 countries working in metal, electronics, wood, plastics and more. Company sizes from 30-300 employees.

Continued development

Solution development with high customer influence.

Rich functionality – simply applied

CadConnect

Uses product data from different sources – CAD/PDM/PLM or manual, you configure, model and create manufacturing data – items, BOM's and routings automatically in Business Central.

A customer saying:

"Manufacturing data creation now only takes a fraction of the time it did before."

ItemPlanning

The ultimate tool for the overview of item availability on bill of materials, orders and critical items together with item shortage analysis.

A customer saying:

"Vital in providing excellent item/BOM inventory availability and resolving item shortage problems."

Shopfloor

A MES tool for production planning and operator self-service execution at the shop floor; ultimately paperless.

Elapsed job time data collection.

Time & Attendance app option.

Works with the Netronic VPS/VAPS for complementary graphical planning.

A customer saying:

"The solution has provided us with valuable real-time order status and operator self-service."

MakeToOrder

Does the impossible in Business Central.

Changing due dates on running production orders when things are not going as planned.

A customer saying:

"This tool is indispensable when rescheduling production orders in progress."

We have customers world wide
